05:39 VVK iift level was easy?  
05:39 maverick IIFT was too easy except Quants

05:39 guest763116 @schumi i am n asking from u..by the way thks for that..  
05:39 nishantkhanna iift was easy

05:40 ankita btw,can i expect making a kol iift cut wid 2.01 in quant?overall 26  
05:40 careerlauncher prachi; level would certainly be higher but linear  
05:40 VVK know i mean quant in iift?  
05:40 Hussain CAT Being online, should we expect less of calculation based Di and

05:42 ayush sir will quant level be same as iift or higher coz iift level is easy

05:42 careerlauncher john; high possibility of CR

05:42 schumi no one replies when we ask in english and no other lang -> helpless!

05:42 Hussain All mocks are having algebra then any other topics in Quant . Any perticular reason for that?

05:42 CAREERLAUNCHITES wow maverick kaha se rule nikala bhai..no hindi

05:42 achilles wat shud be the order of attempting sections in cat ?

05:42 sachin wat is the last date of coleeges of cat

05:42 gitmo first of all, who is the career launcher's representative here?

05:43 maverick this is no rule but think of some guys who are unable to understand it....they wont be benefitting from ur questions

05:43 schumi lol

05:43 rahul how u rate level of difficulty of cl mock cat to real cat

05:43 guest363224 sir, what will be the cutoff for SC candidate in IIFt?

05:43 schumi sir plzz spk only cat :)

05:43 kallol that depends i guess

05:43 careerlauncher level of mock cats is very similar to level of CAT

05:43 VVK SIR DIFFICULTY OF PROC MOCK v/s CAT 09?

05:43 VVK :-)

05:44 careerlauncher VVK: very similar

05:44 schumi yeah proc vs CAT

05:44 nishantkhanna sir procs r similar or the online versions?

05:44 Rajat i just got a mail from prometric that i have nt filled the required info correctly

05:44 Rajat howeveere

05:44 Rajat on checking up

05:44 VVK what is expected main topic in cat for quant it being online?

05:44 schumi sir arent the quant of procs tougher than cat

05:44 rahul what r total number of student that give mock cat in cl

05:44 gitmo based on previous year's analysis and experience, how much of a percentile jump can a candidate expect vis-a-vs scores in mocks?

05:44 Rajat i fnd dat i was correct

05:44 ankita am pathetic in quant....do u think around 20 can get me an iim call? shillong's fine for me

05:44 careerlauncher nishant: procs much closer even online but mostly students

score better in online as they take it under relaxed conditions

05:44 LKG sachin visit CL website

05:45 sachin can anyone tell me abt last dates of forms of cat

05:45 Hussain Will CAT be following GMAT pattern now?

05:45 maverick @Hussain....already answered by sir

05:45 ayush CL's representative why don't u ans

05:45 schumi sir

05:45 rahul as number of asprits have decreased will cutt of percentile of college

05:45 ayush sir will quant level be same as iift or higher coz iift level is easy

05:45 schumi plzz answer

05:46 gitmo who is the career launcher's representative in this chat room?

05:46 nishantkhanna sir m having much better performance in procks than online mocks and the cut offs for online are unrealetistically high

05:46 careerlauncher HUSSAIN: GMAT is a computer adaptive test CAT may go computer adaptive next year onwards

05:46 rahul sir atleast answer my one question

05:46 VVK @ayush was iift quant really easy :-)

05:46 maverick @gitmo...the one in the list as having star in his/her smiley....

05:46 gitmo okay thanks

05:46 nishantkhanna wats the reason 4 dis?

05:46 Hussain How will the DI section be taken care of in Computer adaptive format?

05:47 schumi we ask one ques here , reply might come back with a prob of 1 in 100 and no use even of looking at others ques coz most are not concerned with cat...better than this arrange a one-one session with mentors at the center

05:47 sachin wat should i do to improve my lr di sect

05:47 LKG Rahul - last number number of catters were 2.47 lacs and this year it will be around 2.35 lacs , hence it will not be significantly different

05:47 gitmo i think it has been made clear a number of times that the real CAT will NOT BE ADAPTIVE.. So, guys stop spamming the room with useless questions

05:47 inquisitor sir, it happened last year that the cutoffs predicted eventually turned out to be lesser than actual ones..if maximum limit is to be considered, what could be the max xutoff for iift

05:47 maverick @sachin....i thnk its too late to do smthng....go or Data based if its

strong

05:48 maverick go for\*

05:48 schumi we ask one ques here , reply might come back with a prob of 1 in 100 and no use even of looking at others ques coz most are not concerned with cat...better than this arrange a one-one session with mentors at the center, isko bhi no replies!

05:48 ankita gitmo, any idea what the MINIMUM quant cut off can be?  
05:48 Hussain Dude its not just about being adaptive ...but the pattern of questions all matter . Right ? DI should go under change ... Be it adaptive or not  
05:48 inquisitor what the MAXIMUM would be??  
05:48 careerlauncher inquisitor: CL was bang on, we predicted 27-28 and the actual IIFT cut-off was 27.2

05:51 maverick no one can predict exact # of questions yaar

05:56 LKG Schumi this year Item creation responsibility is with prometric

05:56 careerlauncher Strategy for last week would be to acclimitise your body clock to the actual CAT test timing, proper sleep, keeping a cool mind, try solving 2-3 tests in the next 5-6 days in the actual time you have booked your slot

05:56 christiano guest367378:goa nd party..dis is cat chat room

only is that enough

05:57 schumi sir

05:58 billikadeewana go.....go....go.....

05:58 careerlauncher Schumi: when the item creation is with prometric it means that it doesn't lie with any IIM

05:58 schumi you mean prometric sets the paper?

05:58 careerlauncher Rahul: in addition you can take one or two more tests

05:58 uday sir my add has changed ,should I take passport having old add.
